Subject: Ex. 6 Personal Privacy (PP) Home Packets.

Good morning Mike and Ali;

Here are NNEPA and EPA recommendations for the Ex. 6 Personal Privacy (PP) that Steve Calanog and I talked to you on the afternoon of January 7, 2020.

- Propane stoves for the mobile homes which would come with a 250 gallon propane tank with a one time fill. (Gas range is an option in the packets). The reason being that we as Navajo's are not costumed to electric stoves. They are fine with the electric water heaters.
- EPA Certified wood stove for Ex. 6 Personal Privacy (PP) since their current mobile homes has a wood stove.
- Separate septic systems for each mobile home. Because their are two separate Residential Leases going through the process.

On the Standard Specs & Options page it has under WINDOWS AND DOORS does that mean the doors would open to the outside not inside, I don't think that would be good for the mobile homes since they will not be getting a porch. At least the front doors should open to the inside. I know that Ex. 6 Personal Privacy (PP) will be getting ramp to their mobile home for the front and back door. With them living on the Mesa they do have strong winds on windy days.

Another question I have are the Ex. 6 Personal Privacy (PP) allowed to choose from the "OPTIONS AVAILABLE" list on the packets given to them on January 7, 2020. Because their are 15 options available and how many can they choose from the list of 15. If so my recommendations would be:

1. Dishwasher (Ex. 6 Personal Privacy (PP) would like a dishwasher)
2. Storm Type Door with/storm (Front)
3. Storm Type Door with/storm (Back).
- 4.
- 5.
6. Thermal Zone III (I would recommend Thermal Zone III)
- 7.
8. Wind Zone III, Includes OSB and 16 " O.C. Trusses
9. Thermal Pane Low E Vinyl Windows (available for Thermal Zone III only)
- 10.
11. Gas Options: Range

- 12.
- 13.
- 14.
15. Energy Star (EPA Provides Energy Star Appliance under the Contaminated Structures Program)

I would like response so I can sit down with the Ex. 6 Personal Privacy (PP) early next week and get a response back to you with the signed packets. If there are any questions please let me know.

Thank you,

Vivian
